Medienerziehung 2.0
New Answers to New Challenges

Andreas Büsch

The joint declaration of the DBK and EKD in 1997 described a decisive change in communication and warned against the risk of the Medienwirtschaft and saw the Medienwirtschaft as a new way forward. In the meantime, we are with high speed in the Medienwirtschaft and also the Pädagogik meets the task of guiding pupils in the field of content and imparting knowledge in the multilingual educational context to reflect.

In the meantime, the digital revolution has historically not yet reached us. Yet, the digital revolution has reached us. And in the meantime, Medienerziehung in the 21st century is about to be conceptualized. The question is whether we want to continue to make the digital revolution work in our teaching system.

Medienerziehung heute

The digitization of programs and documents is a new topic in the field of digital media and should be discussed in the next few years. The question is whether we want to continue to work in our teaching system.

Von der Bewahrungspraxis zur Medienkompetenz

The digitization of programs and documents is a new topic in the field of digital media and should be discussed in the next few years. The question is whether we want to continue to work in our teaching system.

As "wertevolle" (valuable) digital content, those Medien content are being developed. In the meantime, the content is still in the form of digital content and the question is whether we want to continue to work in our teaching system.

The digitization of programs and documents is a new topic in the field of digital media and should be discussed in the next few years. The question is whether we want to continue to work in our teaching system.
